

CCT Rx SECURE™

DIGITAL TOOL FOR OPTIMIZING OPERATIONS FOR SPECIALTY PHARMACIES

What is CCT Rx Secure?

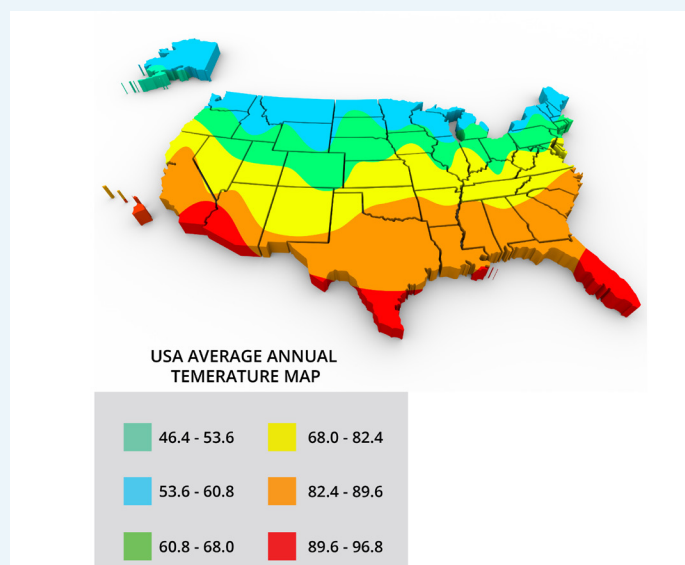

KEY BENEFITS

- ▶ Rx Secure is a streamlined, data-backed digital tool provides operational efficiency that includes Route Pro and Lane Risk
- ▶ Takes the guesswork out of which seasonal pack-out to use
- ▶ Provides a view of shipping risks due to extreme weather
- ▶ Reduces operational costs and improves staff training efficiency
- ▶ Allows pharmacy leaders to focus on patient care

CCT Route Pro™

Route Pro is a digital tool used to determine the best pack-out for our last mile seasonal solutions using shipper specific information, a predetermined shipping route, and predictive weather APIs.

Why do you need CCT Route Pro?

- ▶ CCT Route Pro will provide you with guidance for selecting an appropriate pack-out for your shipment requirement.
- ▶ Given that climates vary dramatically throughout the US, using a calendar to determine when to switch seasonal pack-outs is not an accurate or recommended method for your shipments.
- ▶ CCT Route Pro takes the guesswork out of pack-out decisions to give you assurance that your shipments will arrive in compliance.
- ▶ By using CCT Route Pro, you will likely save money in shipping costs, gel packs, and product

CCT Rx SECURE™

CCT Lane Risk™

Lane Risk is a digital tool that assesses the risks for shipments due to extreme weather.

Why do you need Lane Risk?

- ▶ Lane Risk provides actionable insights and will help optimize logistics and reduce costs for Specialty Pharmacies.
- ▶ When sending out shipments you need pre-alerts on likely weather events that may create a risk of delay in the delivery of your shipment or cause excursions.
- ▶ Lane Risk uses comprehensive weather data, including current conditions, short-term and long-term forecasts to provide severe weather alerts in a summary chart with a 1-, 3-or 5-day outlook.
